

HO7RN Cable

H07RN-F cable is a heavy-duty trailing rubber power supply cable designed to provide high flexibility and have the capacity to withstand weather, oil/grease, mechanical and thermal stresses.

Typical applications include handling equipment, mobile power supplies, worksites, stage and audio-visual equipment, port areas and dams. Also, for use in drainage and water treatment, cold environments, and severe industrial environments

Compliance

- EN 50525-2-21

HO7RN Cable

HO7RN Cable Specification

Item	Detail
Product Type	H07RN-F Rubber Cable
Sheath Colour	Black
Order Code	HO7RN
No of Cores	2
Conductor Area	1mm ²
Core Colours	Blue, Brown
Current Rating	16A
Voltage Rating	450 – 750V
Temperature Range	- 30 to +60
Insulation	EPR (Ethylene Propylene Rubber)
Conductors	Flexible Copper Conductor
Sheath/Jacket Material	PCP (Polychloroprene)

Packaging

50m or 100m drums
